Turnitin

Academic cheating is a growing problem that's become easier since the onset of the Internet. Now teachers have to be more vigilant to catch cheaters in the classroom.

- Students need to set up an account
- Plagiarism Prevention: Instantly identifies papers containing unoriginal material.
- Peer Review: Students can review and respond to their classmates' work online.

Howard High School Online Reference Subscriptions Databases

These databases may be used at school or home

Online Subscription Databases

WE WANT ALL HoHS STUDENTS USING THESE SUBSCRIPTION DATABASES. Credibility is important anyone can produce a web page and have it Googled, it is often unclear who is writing the information and whether a page can be trusted. All the referenced web pages are reviewed and deemed accurate and reliable by the publishers.

These databases require a user name and password and some require students to set up a free account. User names and passwords are available in this brochure and cannot be published, posted on the web or distributed to people outside the Howard County Public School System. Sharing this password information outside HCPSS is a violation of our agreement with the vendors.

Passwords to all databases are available in the Media Center.

Databases

Very important to our student's research work and learning are the subscription databases subscribed to over the past few years:
